

## DÉCOR

Your Décor person should:

1. Be able to help you decide on a theme and colors - the look and feel of your room, subtle or glitzy, elegant or whimsical, or a combination.
2. Show you lots of photos of past events. Make sure you like their work.
3. Let you have as much or as little input into the look of the room as you want.
4. Be clear on what you are renting and what's yours to keep at the end of the night.
5. Be able to take an idea and create a fantasy for you. Talk to them about your ideas too.
6. Help you make decisions on appropriate décor; balloons, flowers, props, functional décor and eye candy.
7. Help you make decisions on seating styles, lounge furniture, etc.
8. Help you decide what type of décor you need: centerpieces, entrance inside and out, lines, chair covers, overlays, buffet tables, dance floor, stage, place card and gift card table, candle lighting, etc.
9. Be able to make your event unique, personalized and extraordinary.
10. Have lots of ideas and resources to create your look. Imagination and creative ability are key when selecting your décor person.
